

Handrail support for glass SA-423 (BG R)

HANDRAIL SUPPORT with TRIM and ROD with BRACKET for GLASS

Material: Machined stainless steel.

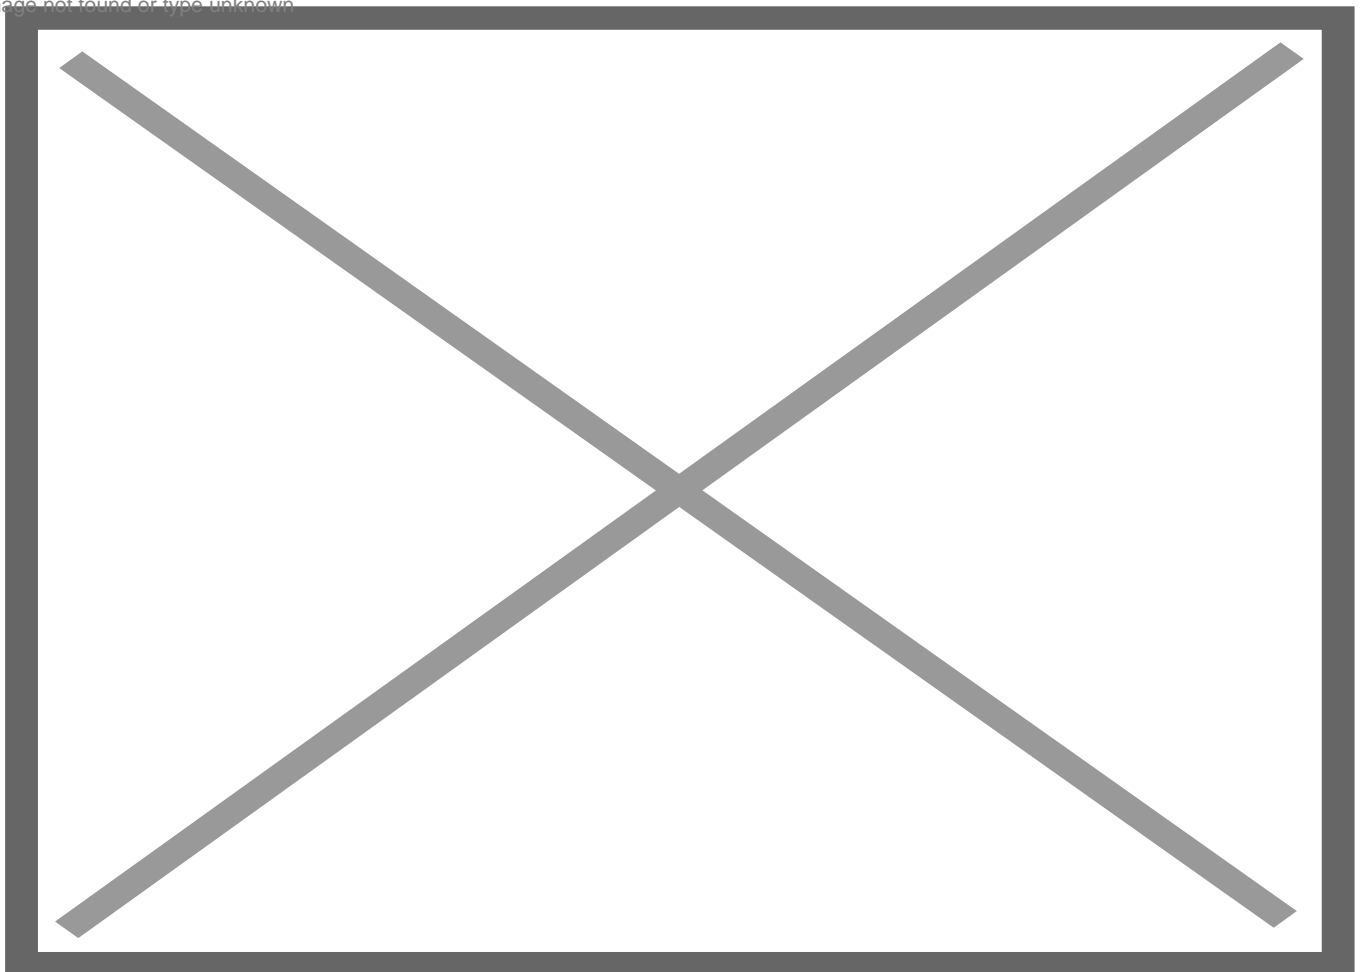

Quality: AISI 316.

Finish: Gloss (see satin finish).

Description: Support for mounting glass handrails. The support is composed of an axis for installation for fixing on a glass through a drilling, a decorative cover that covers the base to hide the drill, an arm with an elegant design in shiny polished stainless steel and a rod that can be adjusted in height. In order to position the handrail with a bracket at the top, the bracket has a joint that will be used on railings that have an inclination.

The bracket is suitable for round tubular tubes and has easy attachment to the tube using stainless rivets or self-tapping screws.
