

Quick tensioner with fork

QUICK TENSIONER with FORK

Material: Stainless steel.

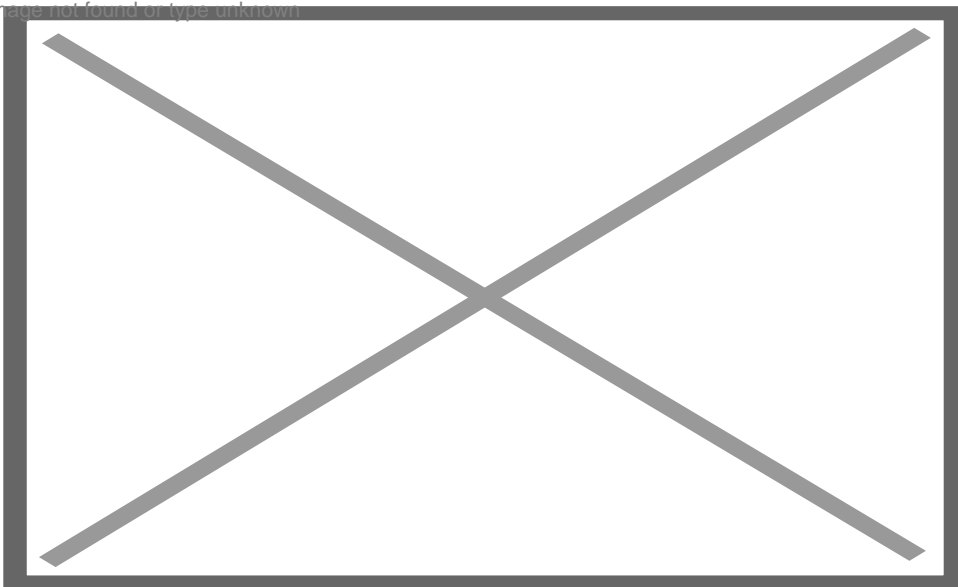

Quality: AISI 316.

Finish: Gloss (see satin finish).

Description: Tensioner for the construction of cable defenses on railings. With a cylindrical exterior design and fork to adapt to inclinations.

Fixing to square, rectangular, cylindrical tube or directly to wall or floor. The fixation to the cable is carried out with a conical bushing without the need to present the terminal. The most reliable and easy to assemble tensioner on the market without the need for cable dams. Stocks with right and left thread for strong and effective tensioning (recommended maximum 10 meter run).
