

Rollapar simple y doble soldar central

Tanto los **rollapares dobles U-40 y U-60** como el **simple U-40** se utilizan en puertas articuladas en curva y en correderas plegables solapadas.

Son herrajes en **acero inoxidable** que se deslizan sobre las guías o raíles superiores para permitir maniobras de corredera.

- **Rollapar simple U-40 soldar central**
