

## Wall-Plated Elbow with Distancer

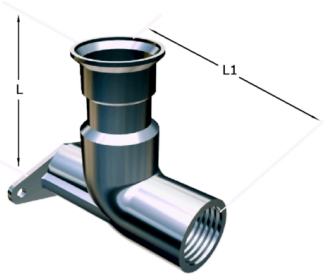

**Manufacturing Standards:** DVGW round tubes manufactured according to DIN-1988/2463 EN 10312. Tubes with DVGW TS 225 authorization correspond to the requirements of the DVGW W 541 worksheet.

**Certificates:** Standard stock lengths of 6 meters. Product certificates are provided, if required, according to the following standard: EN 10204/3.1.B or DIN 50049.

**Grade:** Austenitic, series 304 - L, 316-L

**Dimensions:** Manufactured in diameters from 15 mm to 108 mm. Wall thickness of 1 to 2 mm

**Applications:** DVGW W 541 tubes are used for transport of chlorinated drinking water up to 2 mg / l in AISI-316 L grade water pipes. The AISI-304 L grade is used in compressed air systems.

### Technical information

| DN | Dimensiones |    |    | Art. |
|----|-------------|----|----|------|
|    | Tubo Ø      | L  | L1 |      |
| 12 | 15-½"       | 50 | 65 | 3423 |
| 15 | 18-½"       | 50 | 65 | 3425 |
| 22 | 22-¾"       | 54 | 65 | 3427 |
