

Top rail

Sliding guides for rollapars in stainless steel **AISI 304/316** in strips of 3 meters per rollapar.

We found three different models; **U-30** top rail, **U-40** top rail and **U-60** top rail.

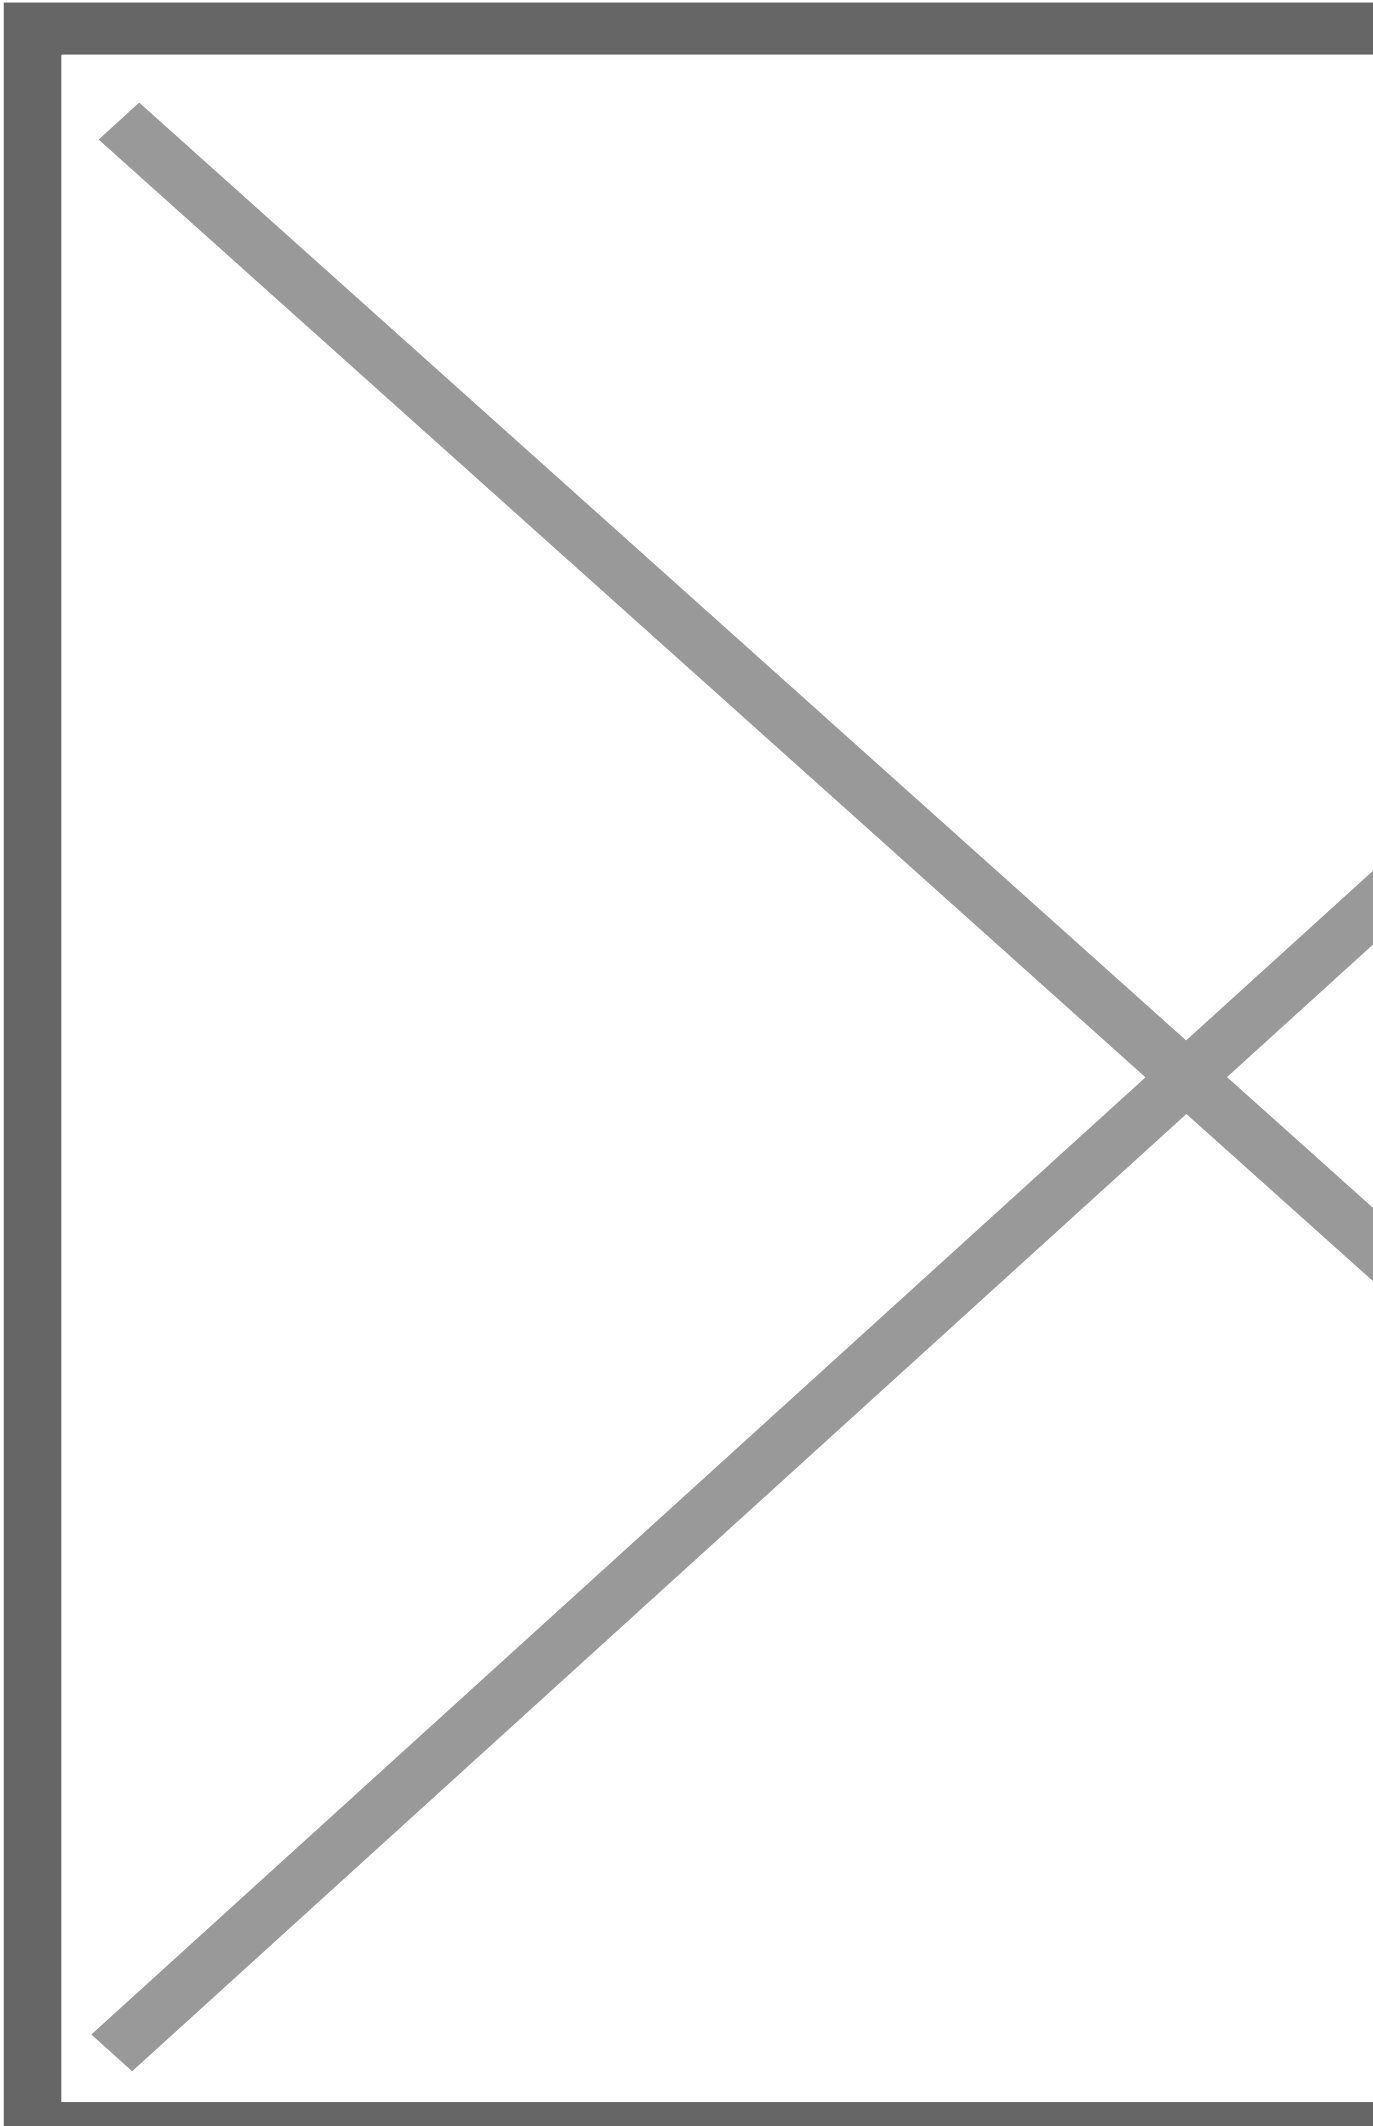

These rails can be used in corrosive environments, both in the agri-food or industrial industry, where due to their location due to their low maintenance it is essential in the installation of sliding doors to have a noble material such as stainless steel that guarantees Perfect maintenance, free of rust and rust stains.
