

Aluminum disc steering wheels GN 321-A

Disc flywheel GN 321.4-A

- Cast aluminum.
- Turned and polished crown in mirror finish. The other shot blasted surfaces.
- Standard hole in H7 tolerance.
- Axial and radial eccentricity less than IT12.

[Access to catalogs](#)

Disc handwheel with rotary handle GN 321.4-D

- Cast aluminum.
- Turned and polished crown in mirror finish. The other shot blasted surfaces.
- Standard hole in H7 tolerance.
- Axial and radial eccentricity less than IT12.

[Access to catalogs](#)

Disc flywheel GN 321.5-A

- Cast aluminum.
- Turned and polished crown in mirror finish. The other shot blasted surfaces.
- Standard hole in H7 tolerance.
- Axial and radial eccentricity less than IT12.

[Access to catalogs](#)

GN 321.5-D

- Cast aluminum.
- Turned and polished crown in mirror finish. The other shot blasted surfaces.
- Standard hole in H7 tolerance.
- Axial and radial eccentricity less than IT12.

[Access to catalogs](#)

Disc flywheel GN 321.6-A

- Cast aluminum.
- Turned and polished crown in mirror finish. The other shot blasted surfaces.
- Standard hole in H7 tolerance.
- Axial and radial eccentricity less than IT12.
